MyModem V.92

V.92-V.90 DATA FAX VOICE MODEM

modem

Rugged and reliable NetComm – depend on it

AUSTRALIA'S MOST RELIABLE MODEM

You have purchased one of the most robust and reliable modems in Australia. First launched in 1994, MyModem has become a standard in many thousands of offices and homes around Australia because it works – simply and reliably. And this new model is even better than before.

ULTRA CONNECT TECHNOLOGY

With NetComm's own new Ultra Connect Technology, you'll experience higher connection speeds to your ISP so you can surf the net faster.

PERFORMANCE & RELIABILITY FEATURES

NetComm's MyModem incorporates many of the features found in high end corporate modems such as 2-wire leased line; Synchronous data transfer for use with mainframes and legacy systems; Digital Line and brown-out protection to ensure maximum connection time for your modem communication.

VOICE & FAX ANSWERING MACHINE

Use MyModem as an automatic answering machine that stores incoming voice and fax messages – software included!

FAX SOFTWARE

MyModem comes with software which allows you to:
- Fax your documents faster, direct from any Windows® applications without having to print the document first.
- Schedule delivery of low-priority faxes during off-peak hours, so you can save money.
- Receive faxes from any fax machine, store them on your PC, & view and print them at your leisure.

FLASH ROM UPGRADEABLE

MyModem comes with Flash ROM, so you can keep your modem up to date and efficient, within the V.92 standard. Simply visit www.netcomm.com.au and download any new enhancements free.

CALLER NUMBER DISPLAY*

Included software lets you display caller numbers on your monitor, so you can filter your calls before answering.

DISTINCTIVE RING SUPPORT*

MyModem can automatically distinguish between an incoming fax and an incoming voice call on a single telephone line.

* This service must first be enabled by your telephone service provider.

CHECK THESE GREAT FEATURES

- Faster connection with Ultra Connect Technology

- 2-wire leased line for point to point communications over unpowered lines

- Full duplex, synchronous transfer mode, digital line and brown-out protection

- Voice and fax answering machine, caller number display* and distinctive ring support*

- Flash upgradeable to keep your modem up to date within the latest V.92 standard
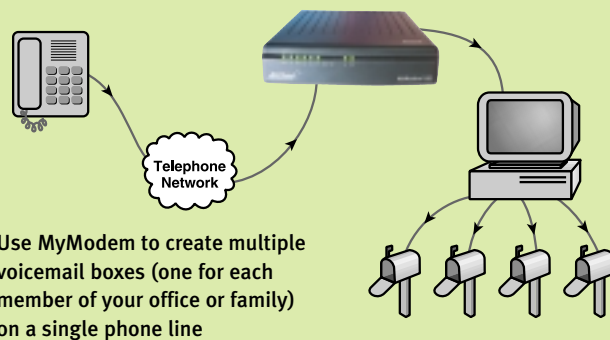

MyModem V.92

Brown-Out Protection

SYSTEM REQUIREMENTS

A Pentium processor 300Mhz or above

Microsoft Windows® 98, 2000, ME or XP

32Mb RAM for Windows® 98, 64Mb for Me & 2000, 128Mb for XP

Minimum 120Mb free hard disk space

CD-ROM drive for software installation

Telephone line connection socket

240 Volt power point for power adaptor

IMPORTANT INFORMATION

Do not connect your modem to a digital phone line or digital PABX. 56Kbps is the maximum download speed and 48Kbps is the maximum upload speed. Both are subject to telecommunications carrier service.

Your Internet Service Provider must support the V.92 standard for V.92 features to work. If a V.92 connection is not available, this modem automatically reverts to the 56K V.90 mode.
